MICHELIN

SAFETY PRECAUTIONS

- Do not use the tyre at an unsuitable speed, a speed higher than its index or with a load heavier than the one recommended for its index.
- Correct inflation is essential for the safety and longevity of tyres. Observance of the inflation pressure recommended by the bike manufacturer plays a significant role in good motorbike performance.
- A tyre gradually loses air. You should check tyre pressure before every ride. If pressure is checked when the tyres have just been used, the tyres are warm and pressure increases when rolling. Never reduce pressure based on the tyre pressure readings of a recently used tyre.
- If tyre pressure is lower than the recommended level, it must be topped up. It should be considered that the pressure can be as much as 4 psi higher than the recommended pressure when cold.
- After checking, do not forget to replace the valve cap which, in addition to the valve core, keeps the assembly airtight.
- With tubeless tyres and wheel rims it is recommended that the valve and the valve cap are replaced whenever the tyre is replaced or removed, as they are an essential sealing element.

LEGAL NOTES

Failure to comply with the above recommendations may impair the performance of the vehicle, lead to handling problems and/or tyre malfunctions of a type that could endanger the safety of the user and third parties. Michelin can in no case be held responsible for damages resulting from and/or due to use that does not comply with its recommendations.

(*) : According to DEKRA independent testing carried out in 2016 and 2017.
 (**): MICHELIN Trial Light (front and rear) is 6 % lighter than MICHELIN Trial Compétition (front and rear).

MICHELIN OFF ROAD RANGE

MOTOCROSS

LEISURE

JUNIOR **NEW**
MOTOCROSS
MICHELIN
STARCROSS 5 MINI

Big performance for small bikes !

- › Optimized performance for young riders and racers : improved grip and durability compared to previous range
- › A complete and simple range covering all junior sizes.
- › Chosen by young champions !

MICHELIN
STARCROSS 5 SAND

For sand

MICHELIN
STARCROSS 5 SOFT

For mixed/soft terrain

MICHELIN
STARCROSS 5 MED

For Mixed/hard Terrain

MICHELIN
STARCROSS 5 HARD

For hardpack/supercross

MICHELIN
TRACKER

Cross country or enduro, get the most from your freetime!

- › Accelerate, jump, drift, ... have fun without breaking the bank!
- › More freedom, Michelin Tracker is road-approved.
- › Mud, earth, sand, gravel, meadow, asphalt... nothing can resist it! Thanks to its new tread pattern !

Get the best performance whatever the off-road terrain

- › Lighter than the previous range for easier and quicker handling
- › Improved traction in a straight line, better grip and higher lean angles in corners
- › larger size range for a wider scope of usage including new sizes

JUNIOR
MICHELIN
STARCROSS MH3

For mixed & hard-packed terrain.
 (50cc, 65cc, and 85cc Motocross).

JUNIOR
MICHELIN
STARCROSS MS3

For soft and mixed terrain.
 (50cc, 65cc, and 85cc Motocross).

NEW
ENDURO
MICHELIN
ENDURO XTREM

- › An exclusive rubber compound that provides exceptional grip for outstanding climbing and braking traction
- › Great versatility thanks to the innovative Enduro Medium tire tread design

ENDURO

RALLY

TRIAL

MICHELIN
ENDURO MED

Get to the top, whatever the conditions!

- › More versatility and exceptional wet grip thanks to new rubber compounds
- › 15%* improvement in longevity and significantly more stable, reliable performance over tyre life
- › Chosen and homologated for Betamotor RR 4T Factory, Gas Gas EC 250, Peugeot Tweet CKD, Sherco SE-R

MICHELIN
ENDURO HARD

MICHELIN
DESERT RACE

Designed for Rally Raid use

- › Chosen by the winner of the Dakar Rally since 1983
- › Excellent stability in tight conditions and at high speeds
- › Exceptional performance no matter the terrain, temperature, motorcycle displacement or weight of the machine.

NEW
MICHELIN
DESERT RACE BAJA

Designed for Rally Raid use, expert of sandy ground !

- › Already chosen by the Dakar Rally riders in 2019
- › Excellent stability in light conditions and at high speed
- › A tire for heavy motorcycle who can also be used in Enduro

MICHELIN
TRIAL COMPETITION
TRIAL COMPETITION X11

The great value Michelin trial tyre

- › Flexibility, grip and strength
- › Approved by professional riders and amateurs alike.
- › Affordable price!

MICHELIN
TRAIL LIGHT
TRAIL X-LIGHT COMP

MICHELIN's benchmark trial tyre

- › Winner of the 2018 trial world titles with Toni Bou for the twelfth year running
- › Its light weight facilitates sideways manoeuvring and jumping (6% lighter than MICHELIN Trial Competition)**
- › Literally hugs obstacles and rocks thanks to its Maximised Contact Patch casing.
